INTERNET DIRECTORY

WITH MORE AND MORE MANUFACTURERS NOW HAVING OFFICIAL Internet sites, here's our handy directory. If any manufacturer isn't listed here that has a site, please let us know and we'll add them on next month.

WHICH KIT? WEBSITE REVIEW

MANUFACTURER: GRINNALL CARS
Website: <http://www.grinnallcars.com>
E-mail: mark@grinnallcars.co.uk

WITH THE LAUNCH OF GRINNALL'S new Scorpion 4, what better time to inspect the company's website. As with the cars, the site is typically professional - well designed and good to look at. Navigation is quick and there are loads of pictures to look at, although quality of reproduction isn't great. Plenty of interesting stuff on the company's history and, of course, on the brand new car. Details are broken down into obvious categories, making it

easy and quick to find the information you're after. There certainly appears to be considerably more information than you'll get with the standard factory brochure, and that's exactly where a website should score highly. All in all, an excellent site that gives you lots of new material to browse through.

WK? RATING: 9/10

Attention - Owners of PILGRIM SUMOS with Ford Sierra based chassis

Which Kit? would like to hear from any owners of these models, whether still being assembled or completed and on the road, particularly in respect of any examples that may have suffered any problems. We're conducting a unique survey and would like to hear of your experiences both good and bad.

Please contact us in writing at Sumo Survey, Which Kit?, 1 Howard Road, Reigate, Surrey RH2 7JE
