Python Back With Real Bite!

99 examples of this beautiful classic sports car were made during the early 1990s. Now it's back in production, the Python once again means business – serious business!

The only difference is that modern technology has been applied to construction of the body and chassis – both are now lighter and stronger. Performance is higher, handling is better, assembly is easier. This is a classic that's moved with the times.

For further information contact:

RV DYNAMICS, 1 Howard Road, Reigate, Surrey, RH2 7JE
Tel: 01737 225888 or (mobile) 07768 031329

- Superb tubular chassis with fully triangulated backbone.
- Craftsman-made GRP bodywork using polyurethane foam sandwich techniques to increase strength and rigidity whilst reducing weight.
- Uses BMW 5-series donor parts throughout.
- BMW engine options range from 1.8-litre and 2-litre 4-cylinders to 2.8-litre and 3.5-litre straight sixes. The BMW V8 fits perfectly too.
- Also available with Jaguar suspension and Rover V8 or Chevy/Ford small-block V8 power.
- Full chassis £1495 inc.
- Complete body £1850 inc.
